RELIABLE implements physical, administrative, and technical safeguards designed to protect your personal information from unauthorised access, use, or disclosure. We also contractually require that our suppliers protect such information from unauthorised access, use, and disclosure. Use of Cookies and other Web Technologies

Like many websites, RELIABLE uses automatic data collection tools, such as cookies, embedded web links, and web beacons. These tools collect certain standard information that your browser sends to our website. Examples include your browser type and the address of the website from which you arrived at our website.

They may also collect information about:

- Your Internet Protocol (IP) address. This is a number automatically assigned to your computer or device whenever you connect to the Internet. It is a unique address assigned by your Internet service provider or IT department on a TCP/IP network. Among other things, the IP address allows web servers to locate and identify your device.
- Clickstream behaviour. This includes, for example, the pages you view and the links you click. These tools help make your visit to our website easier, more efficient, and more valuable by providing you with a customised experience and recognising you when you return.

Some web browsers may give you the ability to enable a “do not track” feature that sends signals to the websites you visit, indicating that you do not want your online activities tracked. This is different from blocking or deleting cookies, as browsers with a “do not track” feature enabled may still accept cookies.

No industry standard currently exists on how companies should respond to “do not track” signals, although one may develop in the future. RELIABLE websites do not currently recognise and respond to “do not track” signals. If we do in the future, we will describe how in this Privacy Statement. Learn more information about [“do not track”](#).

We partner with third parties to display advertising on our website or to manage our advertising on other sites. Our third-party partners may use cookies or similar technologies in order to provide you with advertising based on your browsing activities and interests. You may opt out of this advertising.

Linked Websites

We may provide links to other third-party websites and services that are outside our control and not covered by this Privacy Statement. We encourage you to review the privacy statements posted on those websites (and all websites) you visit.

If you participate in a discussion forum, local communities, or chat room on a RELIABLE website, you should be aware that the information you provide there (i.e. your public profile) will be made broadly available to others, and could be used to contact you, send you unsolicited messages, or for purposes

neither RELIABLE nor you have control over. Also, please recognise that individual forums and chat rooms may have additional rules and conditions.
